Chinese reports, made several sustained and stubborn attacks on Port Arthur simultaneously by land and sea. They were repulsed with severe loss.

"The position of the Japanese in Kwang Tung is said to be precarious.

"There are rumors from the same has effected a junction with the Port Arthur fleet; that a naval battle took place, and that the Japanese lost four large ships."

"According to information here, a Jap-

anese squadron of nine vessels has been bombarding the coast between Slung Ye Cheng and Kal Chou, on the west coas of the Liao Tung peninsula, just below New Chwang, since June 7th."

Russians Will Endeavor to Establish Wireless System With Port Arthur.

(Special London Times Cable to The Times-Dispatch, Copyright 1904.)

CHE FOO, June 9 .- Realizing that something must be done to communicate if possible with the beleagured garrison at Port Arthur, the Russian government is about to try to establish a wireless sys-tem here to send messages to the big tem here to send messages to the pig Marconi must, which has been raised on Tiger's Head. An agent of the Russian minister to China was here yesterday trying to secure a position to erect a Marconi must. It is not known what action he took, but it is believed that the must will be set up soon.

Rumors Not Confirmed.

Rumors Not Confirmed.

(By Associated Press.)

ST. PETERSBURG, June 8.—Nothing is known here of the various rumors to the effect that Port Arthur has fallen, but it is not considered possible at this time. News from Port Arthur, he Liao Tung peninsula and the Yalu River is cut of from Rusgian sources by the Japanese, who are between the Rusgians and the territory mentioned. It is officially asserted that the cables underling Japan with China are not working, which would prevent Tokio also from having Ruowiedge of avents in that section of Manchuria. The interruption of the cable work, however, is more likely to be "official" and due to a censerable at Tekio,

Japanese Gunboat Damaged.

Tokio, June 8, 10:30 A. M.—Four Japanese cumboats, which made a close reconnolssance of Port Arthur harbor at midnight on June 8th for the purpose of examining the entrance, were exposed to a severe cannonade, Gunboat No. 4 was hit eight times and suffered some damage. One of her sailors was killed and two others were wounded.

Russians Lose Torpedo Boat.

(By Associated Press.)

ST. PETPERSBURG. June S.—Emperor Nicholas has received the following dispatches from Vicercy Alexieff;

"According to the report of Rear-Admiral Wittsoct on the battle of Kin Chou. our right flank was strongly supported by the gunboat Bobr and the torpedo heats Burni and Borki, which afterwards returned to Port Arthur. On the night of May 26th ten torpedo heats were sent out against the Japanese boats operating in Kin Chou Bay.

"One of the torpedo boats struck the rocks and sank. Her crew were suved. The casualties among those serving the naval guns were Sub-Lieutenant Shiman-obovsky, missing, and six sallors wounded,"

REPORT IS FALSE.

Russian Admiral Denies Czar Has Ordered Squadron to Sor-

tic From Port Arthur.

Dispatch, Copyright 1904.)

PARIS, June 9.—A St. Petersburg dispatch quotes Admiral Wirenius, chief-of-stuff of the Russian navy, as follows: "It is absolutely false that the Czar has ordered the Russian Port-Arthur squadron to make a sortle from Port Arthur and endeavor to sink Admiral Togo's fleet. Admirals Gregorivitch and Vitoff have perfect liberty of action, but as the roadstead is still full of floating mines, it would be the height of folly to try to put to sea until the channel is cleared, a work, which is going on 758 rapidly a possible. If the Japanese succeed in capturing Port Arthur from the land side, turing Port Arthur from the land side, it is certain that a sortic will follow and that the ficet will make for Viadivostok at full speed. Thus, at the very worst, several ships will be saved, while those that go down will be enabled to leave their mark on the enemy while coming to a much more glorious end than if blown up in the roadstead."

Expect News Shortly.

Gy Associated Press.)
ST. PETERSBURG, June 8-6:15 P. M.
One of the most prominent officials of
the War Office told the correspondent of
the Associated Press that important news
from the front was expected within three
days. The manager of the Baltic works

at Port Arthur, which he says was sent by wireless telegraphy by way of Che Foo. The message said that the work on the Russian battleship Poblede, which had a hole thirty feet wide in her side, is proceeding satisfactorily.

Pay No Attention to Rumors.

Pay No Attention to Rumors.

(By Associated Press.)

LONDON, June 9.—The sudden interruption of the cable between Korea and Japan is considered significant of the imminence of important operations at Port Arthur, the Japanese having taken precaution, as usual, to cut the only means of communication with the outside world and thus enable her naval and military forces to work with absolute secrecy.

No attention is paid in London to rumors that the storming of the fortress has already begun, because it is known that at the battle of Kin Chon, General Oku had exhausted his ammunition and a sufficient period has clapsed during which the stores of ammunition could be renewed and sloge guns brought into position. It is considered likely that Admiral Toxo is not adverse to Port Arthur wasting its ammunition in constant encounters with the gunboats. This may explain the rumored bombardments, while the firing on the land side may be due to preliminary operations having for their purpose driving in the Russian force.

TANGIBR. MOROCCO, June 8.—The Sultan's letter in reply to the diplomatic representations made in regard to the kidnapping of Messis. Perdicaris and Varley arrived here this afternoon.

It is said by a person in the Sultan's confidence that the Sultan has given or ders to grant all of the conditions demanded by Raisuil, the bandit leader, in order to expedite the release of the daptives.

order to expedite the release of the captives.

The Sultan, in his letter, appoints Herid Ill Barrada to be governor of Tangier, which step was included among Raisull's demands.

Barrada was a member of the council of Mohammed Ill Torres, the representative of the Sultan here, and formerly was governor of Mazagan. The authorities here assert that the raid made yesterday by armed Anjera tribesmen on the home of an Englishman here, during which they obtained several rifles, was only a common robbory, and had no political significance.

the Department.

(By Associated Press.)

WASHINGTON, Juno 8,—American marines have landed in Africa. Admiral Chadwick this afternoon cabled the Navy Department from Tangler as follows:

"I have placed a guard at the Belgian legation, having been asked to do so by our consul-general here."

It is stated at the State Department that there is ample precedent for the employment of an American naval force for the temporary protection of the exposed interests of another power which has no available force at hand. It is supposed here that the Belgium legation is in an outlying section of the city, easily accessible to the tribesmen of the interior.
